November 2005

Master Association – October Meeting

Action Items:

- Decided that Scott Melrose should be given the opportunity to assess the type & condition of the trees originally planted in Straus Park before giving his report on why certain trees were planted.
- Administrative Resolution Number A-09.15.05 was passed unanimously thanking Rae Glover for her 4 years as Recording Secretary of the Master Association Board.
- Decided that the study made for the Long Range Planning Committee by an engineer was incomplete; that Scott McCall will request an upgraded & more complete report from the engineer.
- Decided that Glen Cutler will contact the Environmental Studies Department at the college to see if students would be interested in assessing the health of the lake so that an informed decision can be made as to aeration of the lake.
- Payment of invoice from Cathey's Creek Electric for work performed was approved.
- During discussion of formation of new committees for next year, Harry Fiedler was requested to add a volunteer form to the official Straus Park website, strauspark.org.
